Message from the Principal:

Dear JEI Families,

Each year the Education Oversight Board / Office of Accountability provides a student performance report for Oklahoma schools. As you can see, Jenks East Intermediate students performed above the state's average in each of the fifth grade tested subject areas of math, Reading, social studies, and science. East Intermediate students also performed well above the state's average in both subjects tested in sixth grade (math and Reading). Our students who took the Algebra I End of Instruction test not only performed well above the state's average, but 100% of our students passed the exam. The full school and district profile may be accessed through the JEI website.

The Jenks East Intermediate team applauds and appreciates our families and our community for your ongoing support. Thank you for placing a priority on schoolwork. We also know that attendance plays a vital role in student success, and the JEI staff appreciates the value you place on your child being present and on time for class instruction each day.

Although Jenks Public School students, including those attending Jenks East Intermediate, consistently do well on state standardized tests, we are committed to continuous improvement. We analyze our test data annually to find ways to continue to enhance academic performance for the students we serve. We encourage families to continue to take an active role in their child's education by attending parent/teacher conferences, checking your child's progress on Canvas regularly, and serving as volunteers in our school.

We look forward to a continued strong partnership with our families and community. Have a restful summer.

Sincerely,

A handwritten signature in black ink, appearing to read "Linda Reid".
